DISCLAIMER

All information is based on PIMG's representative Small Cap portfolio. Time-weighted total return is used to calculate performance using accrual method of accounting for income and dividends, and cash and cash equivalents are included. Valuation of account is made on a monthly basis and performance is linked together for time-weighted return. Performance is reported gross of all fees. The deduction of management and brokerage fees will reduce performance over time. Past performance is not indicative of future performance.

Philadelphia Investment Management Group's Small Cap composite information is available upon request.

The Russell 2000 index measures the performance of the small cap segment of the U.S. equity universe. It includes approximately 2000 of the smallest securities based on a combination of their market cap and current index membership. The Russell 2000 Value index measures the performance of the small cap value segment of the U.S. equity universe. It includes those Russell 2000 companies with lower price-to-book ratios and lower forecasted growth values.
